Dear Parents

It is approaching the middle of the term and the students have been involved in lots of activities already. The rest of the term follows a similar pattern with many more events planned.

The students were extremely well behaved at Wooglemai Environmental Centre and they managed to find some treasure and build their own wind generator, as well as complete a low ropes course.

Thanks again to all the parents that helped with the cake stall at Bunnings. Even though it was a bit quiet any money raised still helps the students.

Parent interviews are currently taking place, so if you feel you want to talk to Mrs Culleton or myself before reports are handed out please contact us as next week is filling up fast.

As a staff we are also undertaking our CPR update after school on the 26 May 2015. This is a mandatory course to ensure all students are looked after appropriately if the need arises.

It was great to have Avoca Public School come last Friday the students really enjoyed having the extra students to play sport with.

On Friday I was contacted by a representative of Swimming Australia about a trial program they would like to run with us. The program would involve them providing swimming lessons for all our students once a week at the new swimming pool at Frensham. These lessons would run for the rest of this term and all of term 3. The transport there would be by bus and they would ensure the students were taught by experienced instructors. It would be a good program and I would like everyone to answer the survey that is attached to this newsletter by Monday 18 May 2015. There is no cost to you, the only thing you would have to do is make sure students have swimmers on the day.

Jad Southwell
Principal

NAPLAN well done to Brenden, Alexander, Jasmine, Abby and Ryan.

Science Day for Year 5 and Year 6 at Mittagong RSL on Monday 18 May 2015. A discovery day features up to 8 engaging hands-on science and engineering activities. Activities include ElectraCITY, Minipult, Earthquake, String-along, Robot, Eco-house, Get over it, Mars Buggy, Flights and more.
